Production Note

Cornell University Library produced this volume to replace the irreparably deteriorated original. It was scanned at 600 dots per inch resolution and compressed prior to storage using CCITT/ITU Group 4 compression. The digital data were used to create Cornell's replacement volume on paper that meets the ANSI Standard Z39.48-1992. The production of this volume was supported by the United States Department of Education, Higher Education Act, Title II-C.

Scanned as part of the A. R. Mann Library project to preserve and enhance access to the Core Historical Literature of the Agricultural Sciences. Titles included in this collection are listed in the volumes published by the Cornell University Press in the series *The Literature of the Agricultural Sciences*, 1991-1996, Wallace C. Olsen, series editor.

Please note that the form following page 50 was found every other page in the original book from page 50 to immediately following page 328. To preserve space and expense, the form was scanned only once following page 50.

Entered according to Act of Congress, in the year 1888,
BY D. W. SCOTT & CO.,
In the office of the Librarian of Congress, at Washington, D. C.

FOURTH EDITION.

In the publication of a Directory covering a country so vast in extent, no matter how diligent, nor how much time is devoted to the work, perfection is not attainable. Many omissions and errors will creep in ; but, that we have attained a reasonable degree of accuracy, all who take the trouble to examine thoroughly our work, will admit. Those into whose hands this work may come, discovering any omissions or errors, will confer a favor by noting them and reporting to the publishers. In fact, we invite criticism, hoping to profit therefrom.

We retain the same arrangement of names in this Edition as in the Third Edition.

DIRECTORY.

EXPLANATORY.

Under the heading of "BUSINESS" in this work, we give the answers so far as received to the following questions:

Kind of business.

Numbers of Acres in Nursery Stock.

Number of square ft. of Glass used.

Year began business.

Number men employed.

Average Annual Sales.

Capital invested in Business.

This information has been obtained as far as possible from the parties themselves. Where not so obtained, we have sought it through other sources deemed reliable. We do not vouch for the absolute correctness of these reports, but believe they are near enough to answer the end sought.

D. W. SCOTT & CO., Galena, Ill.

Church Hill Nurseries,

MILFORD, DEL.

Large stock of PEACH TREES. Peach Trees and Berry Plants a specialty. Testimonials showing that Peach Trees are free from the disease called the yellows, which has destroyed so many orchards in other States. Peach Orchards live to be twenty years old. Twenty-three years' experience in the nursery business and cultivating orchards. Patentee of the

Phillips Fruit Evaporator,

which was successful at Smyrna, Del., August 31 and September 1, 1882, in a trial contest of \$100 forfeit with the Williams Patent Evaporator. Manufactured and managed in the contest by S. E. & J. M. Sprout.

The Phillips is the only Evaporator

That uses Patent Iron Tray Frames, and no wood being used inside the Evaporator, which makes the Evaporator more durable and fire-proof.

Made in two sizes. Large size has large capacity.

Circulars of Nursery stock and Evaporator free.

W. R. PHILLIPS,

MILFORD,

DELAWARE.

ESTABLISHED IN 1855.

Z. K. JEWETT,

SPARTA, WIS.

Whitney's Western Tree Digger.

THE TREE DIGGER is without doubt the most important implement to Nurserymen that the inventive talent of the age has produced. Tree digging is a large item of expense at best, as it involves the labor and board of a considerable number of hands, and very frequently the loss and vexation caused by inexperienced men in digging trees badly, would buy a machine. The Western Tree Digger will readily commend itself to the judgment of every practical nurseryman as an indispensable article. This machine is made with special reference to strength and durability, being made of the very best material and of superior workmanship. The cutting blade is of solid "Tool" cast steel, five-sixteenths of an inch thick and fourteen inches wide, with holes in the sides to raise or lower beams to gauge the depth according to the size of trees to be dug.

With two horses and the Western Tree Digger, from thirty to forty thousand 2 year old trees can be dug or root pruned in one day, and with four horses the same number of 3 or 4 year olds, and very much better than by hand, as the roots are cut smoothly and of even length. One man can pull out such class of trees as are wanted, (thereby saving cost of healing in) and have balance stand another year if necessary.

In clearing up old nursery ground it is a success. I have dug 7 and 8 year old apple trees with this machine and six horses. As a root pruner it has proven very valuable, especially in Evergreens, where fibrous roots are desirable; as running the Digger under them has the same effect as transplanting with no loss and great benefits, and is now used by most nurserymen for that purpose.

We make also a machine especially for digging hedge plants, grape vines, seedlings and other small stock. It is so constructed that it lifts the plants up and out of the ground so that our man or boy can go along and pick up the plants without the aid of a spade or other tool.

No. 1 Machine, width of cut 27 inches, Extreme depth, 19 inches.
 " 2 " " " 18 " " 18 "
 " 3 " " " 17 " " 16 "

The depth is regulated by raising or lowering the beam as may be required. The above Machines are all made of the best tool cast steel, five-sixteenths of an inch thick, fourteen inches wide and weighs 140 pounds. We also make a special hett No. 1 Machine for stony ground and where a capstan or other great power is used, it being the same size as No. 1 in every particular, but is $\frac{1}{4}$ inch in thickness. Address orders,

N. A. WHITNEY, Franklin Grove, Lee Co., Ill.

THE COST — OF — ADVERTISING.

For any responsible advertiser, making application in good faith, we prepare and furnish a written estimate, showing the cost of any proposed advertising in the

LEADING NEWSPAPERS OF THE UNITED STATES AND DOMINION OF CANADA.

We prepare and exhibit proofs of any proposed advertisement.

For the preparing of estimates no charge is made, and the applicant is placed under no obligation to transact his advertising business through us unless it appears to him that by so doing he will best advance his own interests.

A copy of the advertisement, a list of the papers, the space the advertisement is to occupy and the time it is to appear, should all be given with the application for an estimate of the cost.

When an advertiser does not know what he wants or what he ought to do, he can designate some sum of money within which he wishes to limit his expenditure; this will enable us to prepare for him such a list of papers as will be the best for his purpose, within the limit of which he prescribes.

Send 10 cents for 100-page pamphlet. Address,

GEO. P. ROWELL & CO.,

NEWSPAPER ADVERTISING BUREAU,

(Printing House Square, opposite Tribune Building,)

10 Spruce St., New York.

EVERETT BROWN,
Bluff Point P. O., Yates County, N. Y.,

—PROPRIETOR OF—

WHITE OAK GRAPE NURSERIES
And Vineyards.

Located at Bluff Point, and near Bluff Point P. O., on west shore of Lake Kenka, Yates County, N. Y. Established sixteen years, four miles from Penn Yan, on New York Central Railroad, at which place are Express and Telegraph Offices. Also in communication by steamers and stage line with Branchport, Hammondsport, and all points on the Lake.

In Vine Propagating I make a specialty of

DELAWARE, CONCORD and CATAWBA

and other well known and tried varieties.

Vines of my own growing are ALL grown in open air, no hot-house starting, and, in my opinion, vines grown in this manner make SUPERIOR VINES to those started in hot-beds and then transplanted.

I WARRANT MY VINES TRUE TO NAME,

And the classing is all done by experienced men in the business.

Prices and Price Lists sent gratis upon application.

TOWNER'S LAKE, POLK CO., IOWA,

14 Miles From Des Moines.

WHOLESALE PRICE LIST.

PACKING MOSS perfectly free from vines for NURSERYMEN and FLORISTS.	
Twenty-five bushels dry Moss, in bale	\$3 50
Five bushels dry Moss, in sacks	1 00
Green Moss in sheets	1 25
Sweet Scented White Pond Lilly Roots, per doz	1 50
" " " Nymphaea Odorata, per hundred	10 00
Aquarium Plants, Arrow-heads, per doz	1 50
Woodbine Plants, per doz	1 20

The Baled Moss is pressed in a hay press and is securely wrapped in stout bagging. The Green Moss is damp and dark green color. All goods delivered at railroad depot or express office free. No charges for baling, bag, boxes, or barrels. The above are bed rock prices, but will give special rates on car loads. It takes 75 bales to fill a car. Orders for car loads must be received not later than the 15th of July for fall delivery in order to give enough time to dry it before the fall rains. I have a lake of about 75 acres of clear water, four to ten feet deep, suitable for raising Carp. Have a beautiful building location between Beaver Creek and the Lake. Am $2\frac{1}{2}$ miles from railroad depot. Have an established custom of pleasure parties who come from Des Moines, but the house is too small to keep enough people to make it pay. Des Moines contains from 30,000 to 35,000 people, and is increasing rapidly. Will sell a half interest to the right man having enough ready money to fix things up in good shape, to make a summer resort of it.

SWANLEY, the Home for Flowers,

Kent, England.

NASHVILLE

RED CEDAR DIMENSION COMPANY

—MANUFACTURERS OF—

RED CEDAR LABELS AND STAKES.

Materials for Greenhouse, Vineyards, Nursery, Garden or Lawn Purposes.

Also Dealer in FENCE POSTS and all kinds of Red Cedar Material.

This Factory is the largest of its kind in the World—being 252 feet long, 54 feet wide, and one and one-half stories high, besides out-buildings.

It is devoted exclusively to getting out material for Greenhouse and Nursery purposes.

As the Company devotes itself exclusively to this one branch, they can furnish for the same money all material to repair or build Greenhouses cheaper and more durable than can be purchased elsewhere. They furnish everything, from the smallest to the largest piece of wood used by the Florist and Nurseryman.

They are well posted in constructing and repairing greenhouses, and parties desiring to build or repair will do well to correspond with them.

There is always at least 100 per cent. made by using Red Cedar. It does not only last a life-time, but the oily nature of the Cedar wood, peculiar to itself, destroys a large class of insects which is destructive to plants.

The labels made at this Factory are smooth as paper, presenting a surface for writing which no other kind possess. The most novel and beautiful thing in labels is their Red Cedar labels, printed with white ink, which makes a beautiful and striking contrast with the Red Cedar.

The Company has sale agents in Chicago, Cincinnati and New York, from which places their goods are shipped at Factory prices. Send for price list.

STRAWBERRY PLANTS.

Having made a specialty of this fruit for MORE THAN A QUARTER OF A CENTURY, growing Seedlings and Testing New Kinds, I am prepared to supply nearly all desirable varieties in

ANY QUANTITY.

All Plants sent out are of

MY OWN GROWING,

and are STRONG, STOCKY, and TRUE TO NAME. They are carefully trimmed and tied in bunches of 25 or 50 (each bunch labeled if desired) and are never allowed to wilt.

They are packed in NEW BASKETS lined with OIL PAPER, with plenty of damp moss about the roots, and the leaves fully exposed to the air. This method originated with me and is as near perfect as can be. Plants thus packed are virtually heeled in, and may be KEPT FOR WEEKS without Blanching or Wilting.

 NO CHARGE FOR PACKING.

SPECIAL TERMS TO THE TRADE.

E. Y. TEAS,

DUNREITH, HENRY CO., INDIANA.

The Famous "Old Iron Clad" STRAWBERRY. THE STRAWBERRY FOR THE MILLION.

This is undoubtedly the Strawberry for the Great West and South.

It is the rankest and most vigorous grower we ever saw, has immense feeding roots, forms larger roots, and makes more fruit germs in the fall of any sort in existence. It is perfectly free from rust or sunburn, NEVER effected by drouth (went through the severe drouth of 1881 without the slightest injury).

It is five days earlier than the Wilson, an immense yielder, in size and shape resembles Sharpless. In color resembles Kentucky, blossoms perfect or hermaphrodite, has shipped 300 miles safely to market and sold higher than Wilson's.

This plant is the acme of perfection; it is entirely distinct from any known Strawberry. We have tested it three years, have out 40 acres of all kinds of Strawberries, and know whereof we speak, when we say, its equal has never yet been found, and we are confident it will revolutionize the business of Strawberry Growing. We say this candidly and assuredly after 15 years' experience in growing strawberries. Every one should plant some of this sort, in every climate on every soil.

BRAGG'S

COMMON SENSE

TREE DIGGER.

—MANUFACTURED BY—

L. G. BRAGG & CO.,
NURSERYMEN,

KALAMAZOO,

MICHIGAN.

ADVANTAGES OVER OTHERS.

It has wood beams that will not bend out of line and cause digger to run sidewise.

The handles are good length, giving the operator a leverage whereby he has perfect control of the blade whether in or out of the ground.

The two adjustable wheels on beams govern the depth of the blade to a fraction. The blade can easily be adjusted to any desired pitch to suit various textures of soil, hard and dry or moist and mellow.

Handles are adjustable to suit the height of operator.

In starting in at end of row only two feet space is required for the blade to enter to its full depth.

In coming out at the end, one man can bring blade to surface by bearing down on the handles and easily hold it out until ready to enter the next row.

Our digger is so evenly balanced that it will run the length of rows without the aid of operator except to keep horses drawing evenly. If horses do not work together at first, by the aid of the long handles the man can counterbalance the bad action of the horses and keep the blade in line.

All the adjustments are quickly made simply by loosening bolts that work in slots.

LIST OF PRICES.

No. 1 Digger, 2 ft. cut, depth 6 to 18 inches.....	\$30 00
No. 1 Digger, with extra blade.....	45 00

ELGIN NURSERIES.

—††—
ESTABLISHED IN 1854.

E. A. RICKER & CO., Prop'rs.

These Nurseries are situated on the open prairie, one mile west of the city of Elgin, Ill., and 38 miles north-west of Chicago, Ill., on the main line of the C. M. & St. P. R. R. and C. & N. W. R. R. and owing to competition of these roads we are able to get extra low rates to all points in the west and northwest. We are connected by Telephone from our office to Chicago, and all principal cities and towns in Northern Illinois and Southern Wisconsin. All telegrams are telephoned to us as soon as received at our telegraph office, thus making no delay in getting a reply, when wanted. Our specialties are EVERGREEN and FOREST TREE SEEDLINGS and SMALL TRANSPLANTED STOCK. We also grow and keep in stock a good supply of FRUIT, SHADE and ORNAMENTAL TREES, GRAPE VINES, SMALL FRUITS, SHRUB-BERY, etc., of all the leading and hardy varieties adapted to the north-west, suitable for retail trade. DEALERS will find the best of accommodations for filling their orders. We grow and offer to the trade APPLE, PEAR, PLUM and CHERRY STOCKS. APPLE ROOT GRAFTS put up in the best possible manner, and at BED ROCK PRICES. Office No. 94 South Street, $\frac{1}{2}$ mile west of Depots. Please let us know what you want, and address
